Summary of Assignments

- | | |
|--|---|
| 1. Team oral presentation (15-20 mins) | 4. Video and web presentation to be uploaded on the web |
| 2. Acting as an audience for oral and poster presentations | 5. Meet with junior mentees on a team basis |
| 3. Meet with TA's to review poster | 6. Final report – if not already submitted |
| 4. Poster presentation | |

Oral Presentations

TA's will create a sign-up list for team presentations. The instructors will add a grade for the overall session quality, including timeliness, clear explanations and interactivity. The powerpoint presentation must be submitted via Canvas. Each audience member will provide feedback to the speakers, which will also serve to take attendance. The talks should be 15 minutes and the overall session will be ended after 30 minutes.

Poster Review and Presentation

The poster presentation will take place as part of Bioengineering Day. There will be requirements for an abstract and ABET summary documents.

Meeting with Juniors

This meeting will be the same as last year, except that the teams must communicate to establish the remote interactive session. The juniors have to submit a report and it will include the names of all seniors at the session. This is a mandatory and graded part of the course.

Video and Web Presentations on the Web

This assignment is unchanged from last year. You may view reports from last year on-line.

Timing: We intend that all oral and poster presentations be completed in the first six weeks of the spring quarter.
